Professional Development Offerings

**The Opportunity
Group**

Professional Development Opportunities

The Opportunity Group offers top quality professional development for K-12 educators in a variety of formats designed to suit your needs while providing school administrators and classroom teachers with the information and strategies they need to bolster their skills as 21st Century leaders.

Formats

- Workshops: 3 hour sessions
- Seminars: 6-hour sessions (1 or 2 days)
- Symposia: 5 6-hour sessions (2 days initially, then 3 1 day sessions)

Workshops, seminars, and symposia require a minimum of 10 participants.

Symposia cohorts consist of 10-20 participants (1 consultant per cohort)

All trainings are hands-on and may be scheduled in a computer lab or as a bring-your-own-laptop (BYOL) event.

Consultants are also available to provide 1-hour concurrent sessions for conferences or meetings.

Symposium for School/District Leaders

This ongoing professional development program specifically targets school and district administrators and consists of five days of face-to-face training offering support to participants throughout the school year. Working in cohorts of 10-20 members each, participants develop and implement individual professional growth plans based upon areas of need, as identified through a self-assessment completed during the initial 2-day meeting.

Weekly participation in an online professional learning network between face-to-face sessions encourages participants to keep their focus and launch plans that will be sustained over time.

Topics include...

- ICT Standards for Administrators, Teachers, and Students
- 21st Century Skills
- Visionary Leadership
- Creating and Supporting Digital Learning Environments
- Digital Citizenship

Leadership Seminars

1 and 2 day sessions focused on

- ICT Standards for Administrators, Teachers, and Students
- 21st Century Skills
- Visionary Leadership

Symposium for Classroom Teachers

This ongoing professional development program specifically targets classroom teachers and consists of five days of face-to-face training offering support to participants throughout the school year. Working in cohorts of 10-20 members each, participants develop, implement, assess, and revise technology-supported lessons using a variety of online tools.

Weekly participation in an online professional learning network between face-to-face sessions encourages participants to keep their focus and create classroom-tested lessons that reflect effective use of technology as a tool for teaching and learning.

Topics include...

- ICT Standards for Administrators, Teachers, and Students
- 21st Century Skills
- Effective Digital Learning Environments
- Project-Based Learning
- Digital Citizenship

Leadership Seminars

1 and 2 day sessions focused on

- ICT Standards for Administrators, Teachers, and Students
- 21st Century Skills
- Project-Based Learning
