July 15, 1996

Dear Herman and Elaine,

After 2 wonderful months we arrived home on the 13 July rested and looking forward to getting back into routine. The 2 weeks in Europe we so enjoyed visiting friends and relations. It had been extremely hot and humid there, but beautiful wherever we went especially Switzerland.

It was thrilling being with the children again. All had gone well here at home and on the farm and business. But I must admit it took me months to get back on top of all the office work again as well as going down to the Cape to arrange with the wedding of Heidi and all the thing that on with it.

December 9, 1996 was the great day. Everything went so well. We were so thankful to the Lord for blessing it, and all the preparations that went into it. Jaco and Heidi live in a little home 20 kms from Cape Town. Jaco is a Medical Technologist and Heidi teaches at a Music School nearby. We have been the 1700 kms to visit them in February and April. It takes 15 hours drive. To make it easier we sleep overnight on the way. Manfred just felt for the first year to visit as often as we can

Ria, our youngest daughter, is 18. How happy she is that the 12 school years are now over. She is studying music

Jimmy who is 25, graduated with a Accounting Science degree in April this year, which he had done through correspondence while farming. He had done it out of interest and stimulation and had enjoyed it immensely. He is a great help to Manfred on the farm and in the business. He is now studying international Taxation.

Lynne who is 27 married John Giessing 2 years ago. They had a son, Ruan, in February on Manfred's birthday our first grandchild. John is a Medical Doctor in a Pretoria Hospital and at the moment doing a extra 3 year specialization course.

It is a 100 years this year since Heinrich Stegen, Manfred's grandfather arrived here on our farm Paardefontein. We so look forward to one day having the grandchildren of Christoph Stegen here with us on the home farm.

'Paardefontein', as we shared with you, is in the Natal Midlands, 80 kms from the Indian Ocean, 100 kms north of Durban (as the bird flies). It is established entirely to pine plantations. The Natal Midlands is a farming area of sugar cane, forestry with a few dairy farms inbetween.

We would love you to come and visit us one day. Our home is open to you and we would love to show you a little of S.A.

Enclosed are photos, your grandfather Christoph's letter's with translation (which Manfred's mother who is 90 in August did for us. We got these letters from Dorothea (Stegen) Diersen's granddaughter (Wilma)

whom we visited again in July '95 on our return from U.S.A.) the Stegen Family Tree, a map showing you where we live, and the 1900 census, which I hope you find interesting.

Thanks you again for having us in your home and the pleasant hours we could spend together, and giving us your time. We so appreciated it and found everything so interesting. It was so good to get to know you.

Many greetings and much love

Manfred and Evelyn

p.s. April and May are our loveliest months weatherwise. We look forward to have you back as our guests.

Although he had a limited formal education, Hoop did extensive reading and educated himself in this manner. July 15, 1996

Dear Herman and Elaine,

After 2 wonderful months we arrived home on the 13 July rested and looking forward to getting back into routine The 2 weeks in Europe we so enjoyed visiting friends and relations. It had been extremely hot and humid there, but beautiful wherever we went especially Switzerland.

It was thrilling being with the children again. All had gone well here at home and on the farm and business. But I must admit it took me months to get back on top of all the office work again as well as going down to the Cape to arrange with the wedding of Heidi and all the thing that on with it.

December 9, 1996 was the great day. Everything went so well. We were so thankful to the Lord for blessing it, and all the preparations that went into it. Jaco and Heidi live in a little home 20 kms from Cape Town. Jaco is a Medical Technologist and Heidi teaches at a Music School nearby. We have been the 1700 kms to visit them in February and April. It takes 15 hours drive. To make it easier we sleep overnight on the way. Manfred just felt for the first year to visit as often as we can

Ria, our youngest daughter, is 18. How happy she is that the 12 school years are now over. She is studing music

Jimmy who is 25, graduated with a Accounting Science degree in April this year, which he had done through correspondence while farming. He had done it out of interest and stimulation and had enjoyed it immensely. He is a great help to Manfred on the farm and in the business. He is now studying international Taxation.

Lynne who is 27 married John Giessing 2 years ago. They had a son, Ruan, in February on Manfred's birthday our first grandchild. John is a Medical Doctor in a Pretoria Hospital and at the moment doing a extra 3 year specialization course.

It is a 100 years this year since Heinrich Stegen, Manfred's grandfather arrived here on our farm Paardefontein. We so look forward to one day having the grandchildren of Christoph Stegen here with us on the home farm.

'Paardefontein', as we shared with you, is in the Natal Midlands, 80 kms from the Indian Ocean, 100 kms north of Durban (as the bird flies). It is established entirely to pine plantations. The Natal Midlands is a farming area of sugar cane, forestry with a few dairy farms inbetween.

We would love you to come and visit us one day. Our home is open to you and we would love to show you a little of S.A.

Enclosed are photos, your grandfather Christoph's letter's with translation (which Manfred's mother who is 90 in August did for us. We got these letters from Dorothea (Stegen) Diersen's granddaughter (Wilma) whom we visited again in July '95 on our return from U.S.A.) the Stegen Family Tree, a map showing you where we live, and the 1900 census, which I hope you find interesting.

Thanks you again for having us in your home and the pleasant hours we could spend together, and giving us your time. We so appreciated it and found everything so interesting. It was so good to get to know you.

Many greetings and much love

Manfred and Evelyn

p.s. April and May are our loveliest months weatherwise. We look forward to have you back as our guests.

Subject: Re. Fw: relatives in common

Sharon,

It was good to hear from you.

I have a picture of you and 3 sisters sitting on the top stoop of the trailer house when you were little I remember our visit to the farm quite well. It was the summer after I graduated eighth grade. I remember the trailer and dad going out to help in the fields with the haying. It was also the first time I had ever seen milking machines.

Is your dad the John Stegen they called Jack and his wife is Anne? I thought all of Uncle Fritz' and Aunt Jessie's boys were passed away.

Yes Jack Stegen is my dad he, Aunt Ada, Aunt May, and Aunt Jessie Ann are the only ones left. It was Bess who was called fat

We were just back to LaSalle for my sister's daughter Megan's wedding on June 29th. It was good to see a lot of the family we don't usually see when we get up there to visit including Kate and Floyd. The time is usually too limited to get to see everyone.

I tried asking for information but no one remembered much. I have scanned some of the information Manfred sent Dad. When I finish scanning the rest I will pass it on to Roger. I am also going to see if I can make contact with Manfred Stegen in Africa to see if I can get some of the information my sister misplaced that included a family tree. Which I have no idea how far back it goes.

We are only about 2 hours From Gainesville in Taylor, SC. Maybe we can get together the next time you are in Gainesville.

Sincerely  
Pam (Steger) Bergandi

My Life Story by Donald Thiemann - October 1997

I was born on Nov. 3, 1924 at Fairmont, Minnesota. to Hugo and Frieda Thiemann. I was the oldest of 5 children, 4 boys and 1 girl, my brothers were called Harold, Willard and Merle, my sisters name was Betty. My youngest brother Merle died as a baby from pneumonia at 5 months of age.

We lived on a farm until I graduated from high school and entered the U.S. Marine Corp. during World War 2. I went to a one room country grade school thru the 8 grade. All of the time at that school there were only 3 to 4 kids in each class, during the 8th year I was the only one in that grade. I had a job at the school the last 2 years that I went there, I had the job of starting the furnace, a wood and coal burner during cold weather, it was not a very exciting job when it was 20 below Zero during the winter.

One day one of the boys put a small can of cocoa on top of the furnace to warm it up for lunch, he did not open the cover and it got too hot and blew up all over the room. We had to write a story for our English class and it was the cocoa disaster that was the subject that I choose as my subject. My teacher thought that was a very good story so she entered me into a speech contest with my story and I happened to win 1st place there. That was about the high light of My grade school time.

I had the normal good times that a young boy has on a farm, getting to drive the big tractor when I was in the 7th grade and helping my dad doing some of the field work, we also had horses that did a lot of the field work also, that part I did not enjoy as much as there was always the work of taking care of them, feeding them and the other animals that we had, cows, pigs, horses and always chickens, all of which had to be fed and watered, and then the milking of the cows twice a day which I did from the time I was big enough to carry a milk pail.

It was not all work and no play on the farm either, we had a creek that run thru the farm and we used to catch small fish and in the winter we would go ice skating and my dad made us a pair of ski from old barrel staves and we would ride one of the horses and pull one another with a rope. We always had neighbor kids to play with and we had many ball games in the summer. We had a number of lakes and parks that we went

to in the summer time, for picnics and fishing, it was not all that boring. We had a couple of horses that we could ride so we would take one of them to go out to the pasture to get the cows at milking time.

We had apple trees on the farm and always Mom had a big garden that kept us in fresh produce, it was always canned when there was more than we could eat. Dad would always butcher a pig or some chickens which were canned also as we did not have an ice box nor did we have electric lights. A gas lantern or lamp was our light. There was no T.V. but we did have a radio that was run by a car battery that Dad took out of the car at night to power the radio. We hardly ever got to go to town in the winter time as the small country road that we lived on did not get plowed unless the farmers living along it did it themselves.

I started High School at Fairmont, Minnesota in 1938 and went there until March of 1939 when we moved to a farm by Claremont, Minnesota. We lived 7 miles from Fairmont and I rode to school with one of the neighbor boys who drove a car. When I started in Claremont I had to walk, it was just a mile to the school house and was good exercise. When it was too cold, my dad would take us when he took the cream to the creamery. I took the regular classes that were available in a small school. I think that I enjoyed Physics and geography the most. I played baseball, football and basketball for sports. I played center field for baseball, Center on the football team and center on the basketball team, mainly because I was the tallest boy in school.

I belonged to the 4H club for a couple of years, one year I had a garden for my project and a calf for the rest of the time. My garden was destroyed the night before the leader was to do the annual judging by someone who didn't want me to win, I guess. I was also in the senior class play also, which took care of my acting stint. We would have what was called spring break, which gave us farm kids a week off to help get the field work done in the spring.

During the summer when there was not much to help Dad with the field work I got a job for one of the other farmers doing field work. My first job paid 25 cents an hour pulling weeds out of the bean fields. Then I got to drive tractors which was a lot more fun. When I graduated in 1942, I got a job driving a gravel truck and also drove a truck picking up milk in 10 gal. cans and took them to the creamery. After I was done with that I helped in the creamery where they also dried milk and I helped package it in big barrels and then took them to a ware house by the railroad tracks where it was loaded and sent off to the Government.

The second World War had started and I had to register for the Draft. As I was still helping Dad on the farm also I was not called up until 1943 in Dec. I had my physical in St. Paul, Minnesota at Fort Snelling where I was assigned to the Marine Corps. I left the day after Xmas for San Diego, CA where I went to Boot Camp. I was tested and they seemed to think that I would make a good Radar Operator.

While I was waiting to go to the school, which was in NORTH CAROLINA, I came down with Strep Throat. But they put a few of us on a train for there, and when we got there I went to the sick bay where they found that I had gotten Rheumatic Fever so I was in the hospital there for a month. The Doctors at that time thought that a warm dry climate would help cure faster so they shipped me back out to the Naval Hospital in Long Beach, CA where I spent a couple more months before I was ready to go back to duty. I was sent to the Naval Air Station on Terminal island, CA where I was made an M.P. It was a good job. I was a Corporal of the Guard at the main gate most of the time. We worked 3 days and then had 2 off so I had a lot of spare time, went to a lot of dances with some of the big name bands of the time. Went to Hollywood and seen some of the movie stars, went to the beach a lot too.

There was a big park like on the beach, it had a lot of carnival rides and a big roller coaster that I and my best friend would ride for hours. All of this time I was still a Private, I did not get promoted to P.F.C. until I went over seas in Jan. of 1945. First I was sent to Pearl Harbor, where I was first assigned to be a truck driver, I was sent to the Island of Maui where I joined the 3rd Amphibious Tractor Battalion, where I stayed all of the time that I was over seas. After loading ships, LST's we wet sail for the Island of Guam and Saipan, which was still under attack. Japs running all over the place yet. I stayed there until the fighting for Iwo Jima was over.

Our outfit had Amphibious tanks, of which I had to learn to drive also but my main truck was a semi that was a tank retriever, but I hauled everything from food to cranes and bulldozers, to lumber to make bridges. We also had to do guard duty, it was very scary at night in the jungle After Iwo Jima was taken we went back to Maui for a while. Then we were sent to the big Island, to Hilo where we loaded ships again, we did not know it but it was meant to be the attack on Japan. But the war ended while we were on our way there. We stopped at Okinawa and then went on to the town of Sasebo, Japan for occupation duty. We were the first to enter the town and did not know what to expect but there was nobody in site. It was 3 days before we seen anyone and then it was just old people and little kids, all of the rest of the people had hid

out in the hills, afraid of what we might do I guess. All of the time I was there I drove the nite shift, 6 PM to 6 AM unloading ships.

We were on 30 some miles from Nagasaki where the A bomb hit but we were not allowed to go there because of the radioactivity, but we did travel around some. We found a Jap speed boat that we fixed up and sped around the Bay. Sasebo was a big seaport, but most of it was leveled, bombed out, except the port equipment. The Navy Seabees had the job of taking the guns and torpedo tubes off of the Jap ships so I hauled some of them to a stock pile where it was cut up for scrap. We lived in a big old submarine repair warehouse that was made into barracks. Not bad and a lot better than the tents we lived in all of the rest of the time that I was overseas.

After being in Japan for 9 months we loaded all of the equipment and left for Tokyo where we stopped for a few days and then left for the states. On the way we ran into a typhoon, that was a real experience I don't want to go thru again. If the ship would have rolled to the side 3 more degrees I would not be doing this now. On top of that the ship had a bent drive shaft and could only go about half speed. So it took us 3 weeks to get to San Diego where we stopped for supplies and to let some of the troops off, those that were to be discharged, all from west of the Mississippi River. I guess that they figure Minn. is east of it so back out on the Pacific and down to the Panama Canal, thru it and up past Cuba to Norfolk, VA where we finally got to get off of the ship. The reason we went to the East Coast was that the 3rd Amphib. was part of the 1st Marine Div. and there home base was Camp Lejune North Carolina. In Norfolk they put the rest of us that was to be discharged on a train to Chicago, at the Great Lakes Naval Base where we were given a physical and our leave papers. As I had been in almost 3 years and had no leave time they sent me home. They made me a Corporal, and after all of my leave time was used up, they sent me my discharge papers. That was the end of my Marine Carrier.

After my Discharge I took a job driving the school bus for the Claremont school. I drove the sport teams to games at different towns around, besides picking kids up and taking them home from school. After school was out I took a job driving a gravel truck and a milk truck for a short time. Then I took a job as a farm manager for a man from Winona, who had land out in South Dakota and around Claremont, Minnesota. I hired help for some of the farms and drove his semi out to Dakota and bought seed for the farms. I did this for about 3 years.

Sharon,

It was good to hear from you.

I have a picture of you and 3 sisters sitting on the top stoop of the trailer house when you were little I remember our visit to the farm quite well. It was the summer after I graduated eighth grade. I remember the trailer and dad going out to help in the fields with the haying. It was also the first time I had ever seen milking machines.

Is your dad the John Stegen they called Jack and his wife is Anne? I thought all of Uncle Fritz' and Aunt Jessie's boys were passed away.

Yes Jack Stegen is my dad he, Aunt Ada, Aunt May, and Aunt Jessie Ann are the only ones left. It was Bess who was called fat

We were just back to LaSalle for my sister's daughter Megan's wedding on June 29th. It was good to see a lot of the family we don't usually see when we get up there to visit including Kate and Floyd. The time is usually too limited to get to see everyone.

I tried asking for information but no one remembered much. I have scanned some of the information Manfred sent Dad. When I finish scanning the rest I will pass it on to Roger. I am also going to see if I can make contact with Manfred Stegen in Africa to see if I can get some of the information my sister misplaced that included a family tree. Which I have no idea how far back it goes.

We are only about 2 hours From Gainesville in Taylor, SC. Maybe we can get together the next time you are in Gainesville.

Sincerely  
Pam (Steger) Bergandi

July 15, 1996

Dear Herman and Elaine,

After 2 wonderful months we arrived home on the 13 July rested and looking forward to getting back into routine. The 2 weeks in Europe we so enjoyed visiting friends and relations. It had been extremely hot and humid there, but beautiful wherever we went especially Switzerland.

It was thrilling being with the children again. All had gone well here at home and on the farm and business. But I must admit it took me months to get back on top of all the office work again as well as going down to the Cape to arrange with the wedding of Heidi and all the thing that on with it.

December 9, 1996 was the great day. Everything went so well. We were so thankful to the Lord for blessing it, and all the preparations that went into it. Jaco and Heidi live in a little home 20 kms from Cape Town. Jaco is a Medical Technologist and Heidi teaches at a Music School nearby. We have been the 1700 kms to visit them in February and April. It takes 15 hours drive. To make it easier we sleep overnight on the way. Manfred just felt for the first year to visit as often as we can

Ria, our youngest daughter, is 18. How happy she is that the 12 school years are now over. She is studying music

Jimmy who is 25, graduated with a Accounting Science degree in April this year, which he had done through correspondence while farming. He had done it out of interest and stimulation and had enjoyed it immensely. He is a great help to Manfred on the farm and in the business. He is now studying international Taxation.

Lynne who is 27 married John Giessing 2 years ago. They had a son, Ruan, in February on Manfred's birthday our first grandchild. John is a Medical Doctor in a Pretoria Hospital and at the moment doing a extra 3 year specialization course.

It is a 100 years this year since Heinrich Stegen, Manfred's grandfather arrived here on our farm Paardefontein. We so look forward to one day having the grandchildren of Christoph Stegen here with us on the home farm.

'Paardefontein', as we shared with you, is in the Natal Midlands, 80 kms from the Indian Ocean, 100 kms north of Durban (as the bird flies). It is established entirely to pine plantations. The Natal Midlands is a farming area of sugar cane, forestry with a few dairy farms inbetween.

We would love you to come and visit us one day. Our home is open to you and we would love to show you a little of S.A.

Enclosed are photos, your grandfather Christoph's letter's with translation (which Manfred's mother who is 90 in August did for us. We got these letters from Dorothea (Stegen) Diersen's granddaughter (Wilma) whom we visited again in July '95 on our return from U.S.A.) the Stegen Family Tree, a map showing you where we live, and the 1900 census, which I hope you find interesting.

Thanks you again for having us in your home and the pleasant hours we could spend together, and giving us your time. We so appreciated it and found everything so interesting. It was so good to get to know you.

Many greetings and much love.

Manfred and Evelyn

p.s. April and May are our loveliest months weatherwise. We look forward to have you back as our guests.

Sharon,

It was good to hear from you.

I have a picture of you and 3 sisters sitting on the top stoop of the trailer house when you were little I remember our visit to the farm quite well. It was the summer after I graduated eighth grade. I remember the trailer and dad going out to help in the fields with the haying. It was also the first time I had ever seen milking machines.

Is your dad the John Stegen they called Jack and his wife is Anne? I thought all of Uncle Fritz' and Aunt Jessie's boys were passed away.

Yes Jack Stegen is my dad he, Aunt Ada, Aunt May, and Aunt Jessie Ann are the only ones left. It was Bess who was called fat

We were just back to LaSalle for my sister's daughter Megan's wedding on June 29th. It was good to see a lot of the family we don't usually see when we get up there to visit including Kate and Floyd. The time is usually too limited to get to see everyone.

I tried asking for information but no one remembered much. I have scanned some of the information Manfred sent Dad. When I finish scanning the rest I will pass it on to Roger. I am also going to see if I can make contact with Manfred Stegen in Africa to see if I can get some of the information my sister misplaced that included a family tree. Which I have no idea how far back it goes.

We are only about 2 hours From Gainesville in Taylor, SC. Maybe we can get together the next time you are in Gainesville.

Sincerely  
Pam (Stegen) Bergandi

Thiemann Name Origins

As first Germans, the 'Tingmann' lived around the "Tingplace". Out of it the names of "Thiemann", "Thremes", "Thielmann" developed.

"Thie" in the Münsterland describes the meeting-point at the lime-tree of the villages. "At the Thie" is a frequent name of streets in Westfalia. Etymological it has something to do with the "Thing-place", which is found in several germanic languages as race-meeting-point and court of justice-place. It is also found in names of towns in Iceland. The Thiemann-people would not have lived on the lime-trees, but presumable as innkeepers and organizers at the celebrations and parties at the lime-tree.
