We Love RP & We Love The New Stepmom

There are many story possibilities to be played out on Rocket Power, now that Ray has remarried. Also, this show has received a 2005 Parents Choice Award (it's *that* good). So, why stop at just one post-wedding episode? We, the undersigned, are big fans of the show who would like to see more episodes that take advantage of how much things have changed in the Rocket household. Please consider it.
