

HELPFUL HINTS FOR REFUGEE COMMITTEES.....

Everything we say today may change tomorrow.

Documentation (county assistance, social security, etc.) issues are a nightmare for everyone. Every individual application has unique problems.

Beware the volunteer that joins the group after a month or two. They will decide that everything that has happened before is shockingly inadequate.

Beware the unconnected volunteer that has more needs than the client.

Self-sufficiency and not dependency is the goal. Everything you do from day one should be geared towards the day in the very near future when the family can make its own choices without needing to rely on us.

ENJOY A GREAT ADVENTURE!
