From our PRESIDENT

Ron Shuler

September is upon us already. Peanut Day(s) are behind us, but there are still plenty of things to keep us busy. Bingo is starting up again. Our weekly meetings will continue with interesting programs. Some members will visit other Kiwanis clubs. The board of directors will have some new people in new roles. Bells will ring in Dec. K-Kids and Builders Club will start up again. The truck will be fished out with great anticipation of the exact time. Lily Day will support Camp Wabeek. Valentine and Christmas gatherings will lift our holiday spirits. The Buckley picnic will remind us of our founding. The Red Cross blood drive will benefit from our service.

All of this and much more happens due to the efforts of all of the retired people who have decided not to sit in rocking chairs and grow old. Of course, we could do

more by volunteering to participate in one or two more activities that we have never done or not done for a period of time. Perhaps I will even try golfing someday. Perhaps we can find new activities that put us in direct contact with the children that we serve. Perhaps we can help Kiwanis International reach the \$110 million goal for Eliminate. We could try to increase our membership so the possibilities of more service could be achieved. Blackhawk Golden K has given this retired math teacher many opportunities to continue to make a difference. God bless us, everyone.

Peanut Days were a great success as all 2 hour shifts were filled. Thanks go to the members that signed up, those who did double shifts, and our Friends-of-Kiwanis.

We will have peanut boxes for sale at the September meetings for \$22 per box. I will have a final report in the Smoke Signal next month.

INTERCLUB NEWS

Chair: *Carl Cramer*

We had an early morning Kiwanis Interclub Breakfast meeting in Whitewater. The meeting was held at Jessica's Banquet Room downtown and was attended by:

Ron Shuler, Linda Servais, Luci and Carl Cramer

The program, presented by BreeAnn Brown, was about a "Maker Space" project (tools to construct things!), a concept of hands-on-learning. It is a type of Children's Museum. Projects include learning about knitting, engineering Legos, disassembling computers, artistic welding, programming microprocessors and preparing for a Pine Wood derby. Adults can share their skills with kids.
