

T-30: A Sound Investment

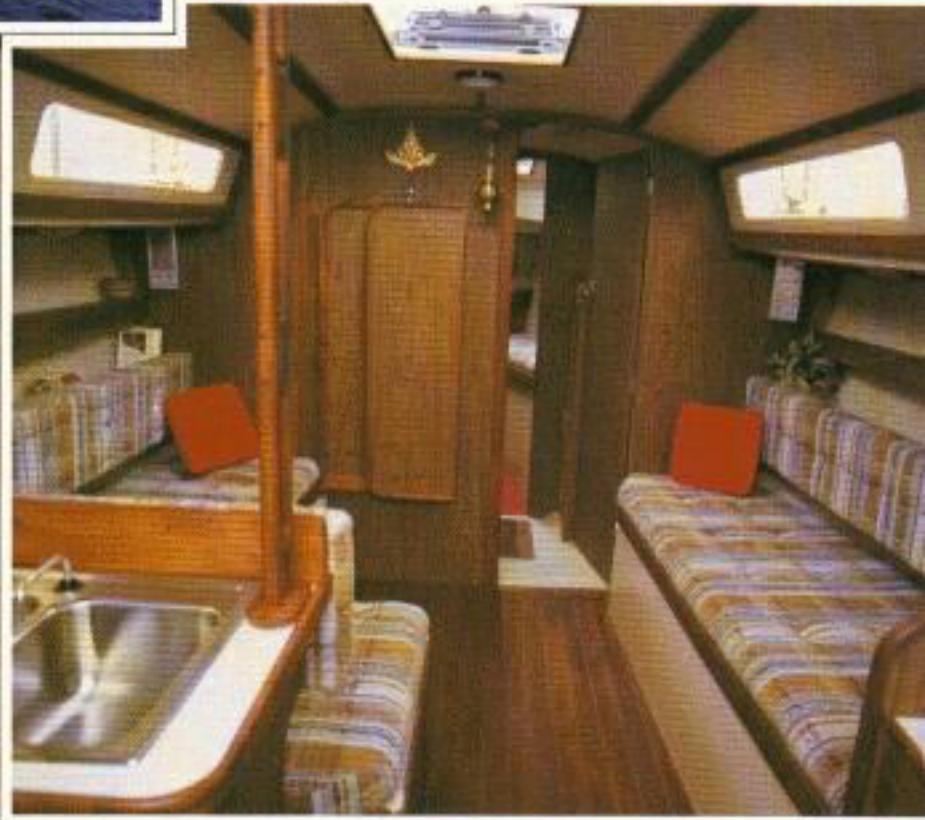

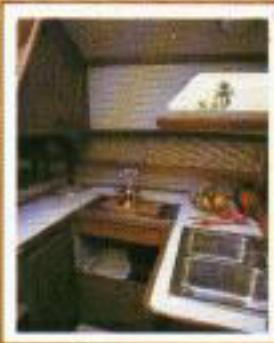

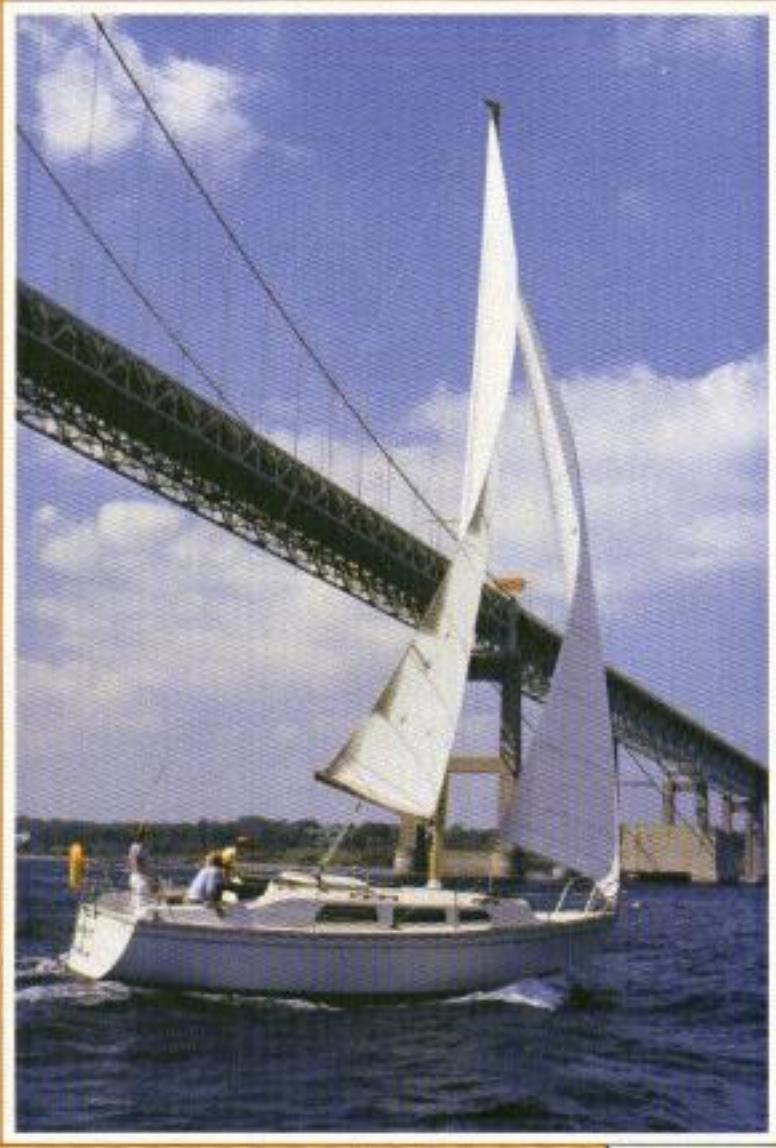

Set sail with confidence or drop anchor and settle back in comfort. The T-30 is a yacht of uncompromised quality.

Thoughtful attention to detail, proven solid construction techniques, highest quality hardware and fittings, graceful lines, and sailing performance, the T-30 is destined to be a modern day classic.

More interior space and deluxe features than normally expected in a 30-foot yacht. The T-30 accommodation plan is dedicated to maximum utilization of space for comfort, convenience and utility. Quality materials, plenty of ventilation, thick foam cushions, and generous teak trim, T-30 creates a livability below to be envied by much larger boats.

This Halsey Herreshoff design performs well on all points of sail. With 4,250 lbs. of lead ballast, she is stiff, steady, and forgiving in heavy air and is an excellent light air "Ghost."

The T-30 is a financial and aesthetic investment you will enjoy for years to come.
